Editing Note	E-i
--------------------	-----

Summary

Description of the Proposed Action	S-i
Public and Agency Coordination	S-ii
Related Actions	S-iv
Project Alternatives Considered	S-vii
New Facility Construction Cost	S-x
Project Schedule	S-xii
Major Environmental Impacts	S-xiii
Important Issues (formerly Areas of Controversy)	S-xxvi
Commitment List.....	S-xxviii
Preferred Alternative.....	S-xxxiii

Chapter 1 Purpose and Need for this Action

Purpose	1-1
Need	1-2
Anticipated Growth.....	1-2
Economic Development	1-4
Transportation Demand	1-5
Capacity	1-8
Modal Interrelationships	1-10
Safety.....	1-11

Chapter 2 Alternatives

Studies and Coordination	2-1
Study Area Limits	2-2
Alternatives Considered	2-2
Alternative 1 - No-Build	2-2
Alternative 2 - Transportation System Management (TSM)	2-3
Alternative 3 - Mass Transit.....	2-8
Build Alternatives	2-14
Alternative 4 - Improvements to Existing Facilities.....	2-15
Alternative 5 - Hamilton/Perry.....	2-17
Alternative 6 - Market/Greene.....	2-19
Alternative 7 - Havana	2-19
Build Aspects Common to Both Alternatives 6 and 7	2-19
Alternative 8 - Bypass/Beltway	2-19
Alternatives Considered but Rejected	2-31
Alternative 2 - Transportation System Management (TSM)	2-31
Alternative 3 - Mass Transit.....	2-33
Alternative 4 - Improvement to Existing Facilities.....	2-36
Alternative 5 - Hamilton/Perry	2-38
Alternative 8 - Bypass/Beltway.....	2-38

Alternative 9 - Facility of a Lesser Scope	2-40
Alternatives Selected for Further Study	2-40
Alternative 1 - No-Build	2-40
New Facility Alternatives	2-40
New Facility Alternative Project Limits.....	2-43
Design Aspects Common to All Build Alternatives	2-44
Alternative 6 - Market/Greene (Preferred Alternative)	2-53
Alternative 7 - Havana	2-54
Alignment Options Common to Both the Market/Greene (Preferred) and Havana Alternatives	2-56
Project Costs and Scheduling	2-59
Right of Way Estimate	2-65
Preferred Alternative.....	2-67

Chapter 3 Affected Environment

Land Use	3-1
Social and Economic Environment	3-5
Social Elements	3-5
Economic Elements	3-7
Biological and Physical Environment	3-7
Air Quality	3-7
Noise.....	3-7
Water and Soil	3-8
Sensitive Locations and Issues.....	3-8

Chapter 4 Environmental Consequences

Introduction.....	4-1
Biological and Physical Impacts	4-1
Air Quality	4-1
Noise.....	4-13
Energy	4-34
Geology and Soils.....	4-35
Waterways and Hydrological Systems.....	4-44
Flood Plains	4-53
Water Quality	4-59
Wetlands.....	4-71
Wildlife, Fisheries, and Vegetation.....	4-78
Social/Economic Impacts.....	4-83
Farmland.....	4-83
Land Use	4-88
Social Elements	4-103
Economic Elements	4-153
Relocation	4-159
Cultural Resources.....	4-179
Hazardous Waste	4-191
Visual Quality	4-233
Construction Activity Impacts.....	4-248
Biological/Physical	4-248

Social/Economic	4-265
Irreversible and Irretrievable Commitment of Resources	4-276
Relationship of Short-Term Uses of Environment and Long-Term Productivity	4-277
Secondary and Cumulative Impacts	4-277

Chapter 5 Public and Agency Coordination

Agency Coordination	5-1
Cooperating Agencies.....	5-1
General Coordination.....	5-2
Public Involvement	5-5
Required Permits.....	5-8
Correspondence	5-8

Chapter 6 Final Section 4(f) Evaluation

Introduction.....	6-1
Alternatives Being Considered	6-2
Description of 4(f) Resources	6-2
Impacts.....	6-3
Impacts of Construction	6-3
Impacts of Operation.....	6-8
Avoidance Alternatives and Their Impacts.....	6-8
Measures to Minimize Harm	6-20
Coordination With Other Agencies	6-22
4 (f) Determination.....	6-22

Appendices

Preparers of Document	A-1
Distribution Section, List of Agencies, Organizations and Persons	
Receiving a Copy of Final EIS	B-1
Study of Route Alternatives Evaluation Matrices	C-1
Route Alternatives Aerial Photo Maps	D-1
Business List and Employee Estimate Tables	E-1
Property Value Tables	F-1
Hazardous Waste Section.....	G-1
Visual Quality.....	H-1
References	I-1
Nomenclature Section	J-1
Hearing Transcript and Comments	K-1
Public Comments	L-1
Glossary	M-1

6-6	Market/Greene (Preferred Alternative)/Havana Avoidance Alternatives	6-14

List of Tables

S-1	Construction Cost Estimates	S-x
S-2	“Build” Alternative Noise Wall Locations Summary	S-xiv
S-3	Farmland Conversion Summary	S-xvi
S-4	Right of Way Requirements for Proposed Build Alternatives	S-xvii
S-5	Number of Businesses and Employees Affected	S-xxi
S-6	Residential and Business Displacements by Alternative	S-xxii
S-7	Neighborhood Residential and Business Displacements - Preferred Alternative	S-xxiii
S-8	Summary of Hazardous Waste Sites by Route	S-xxv
S-9	Required Permits	S-xxxii
1-1	Population Growth Comparisons	1-2
1-2	Comparison of PM Peak Trip Types	1-6
1-3	PM Peak Hour Distribution Patterns	1-7
1-4	PM Peak Hour Arterial LOS and Congestion Summary	1-8
1-5	Intersection LOS Conditions - Existing and Future	1-9
1-6	High Accident Locations (Major Intersections) 1991-1992	1-12
1-7	High Accident Locations (Major Street Sections) 1991	1-13
2-1	CTR Mode Split Data with Projections, Home Based Work Type Trips One Direction	2-4
2-2	Division Street HOV Lane - 2020 PM Peak Hour Trips Two Person Minimum Occupancy-Spokane River to the Division/US 2 “Y”	2-12
2-3	Division Street HOV Lane - 2020 PM Peak Hour Trips Three Person Minimum Occupancy-Spokane River to the Division/US 2 “Y”	2-13
2-4	Traffic Projections for I-90 Liberty Park Interchange to Sprague Ave. Interchange Without the NSF	2-23
2-5	Level of Service Summary, I-90 Peak Conditions for the No Build Options	2-23

2-6	2020 Operation of I-90 — C/D System	2-25
2-7	Intersection Level of Service E/F Percentage Comparisons	2-27
2-8	Arterial Level of Service Comparisons	2-28
2-9	Intersection LOS Conditions Existing and Future.....	2-29
2-10	Capacity Demands Projections	2-30
2-11	I-90 Mainline Access and/or Grade Separation Locations	2-50
2-12	NSF Market/Greene Alternative (Preferred Alternative) Access and/or Grade Separation Locations	2-53
2-13	NSF Havana Alternative Access and/or Grade Separation Locations	2-55
2-14	NSF North Option Access and/or Grade Separation Locations	2-58
2-15	NSF South Option Access and/or Grade Separation Locations.....	2-59
2-16	Alternative 6 - Market/Greene (Preferred Alternative) Project Estimate and Construction Schedule	2-61
2-17	Alternative 7 - Havana Project Estimate and Construction Schedule	2-63
2-18	Right of Way Acquisition Requirements Alternative 6 Market/Greene (Preferred Alternative)	2-65
2-19	Right of Way Acquisition Requirements Alternative 7 - Havana	2-66
3-1	4(f) Properties Within or Adjacent to the Proposed R.O.W.....	3-9
4-1	Federal and State of Washington Ambient Air Quality Standards	4-2
4-2	Sensitive Receptors and Carbon Monoxide Modeling Locations with Existing Conditions	4-4
4-3	1990-1991 Second Maximum Monitoring Values for Spokane County	4-6
4-4	Summary of PM10 Air Quality Monitoring Data for Spokane County	4-7
4-5	Modeled Carbon Monoxide Concentrations for the Market/Greene Alternative (Preferred Alternative)	4-9
4-5a	Modeled Carbon Monoxide Concentrations for the Havana Alternative.....	4-10
4-6	Typical Noise Levels	4-14
4-7	Federal Highway Administration (FHWA) Noise Abatement Criteria (NAC).....	4-15
4-8	Vehicle Mix Used in Noise Analysis	4-18
4-9	Summary of Noise Monitoring Results	4-20
4-10	Comparison of Predicted Noise with Measured Noise Levels	4-21
4-11	Summary of Noise Analysis for NSF for Design year 2020.....	4-23
4-12	Summary of Noise Analysis for NSF for Design year 2020.....	4-24
4-13	Summary of I-90 and I-90 Collector/Distributor Noise Analysis Results for Design Year 2020	4-25
4-14	Summary of Sound Wall Effectiveness for the North Spokane Freeway	4-27
4-15	Summary of Sound Wall Effectiveness for I-90 Collector/Distributor System.....	4-28
4-16	Summary of Noise Mitigation for the North Spokane Freeway.....	4-29
4-17	Summary of I-90 and I-90 C/D Noise Mitigation Analysis.....	4-30
4-18	Estimated Annual Energy Consumption During Operation of the North Spokane Freeway Project in Design Year 2020.....	4-35
4-19	Physical Properties of Soil Types.....	4-37

4-20	Expected Infiltration Capacity Versus Expected Runoff Rate	4-52
4-21	Spokane Aquifer Water Quality Parameters	4-60
4-22	Aquifer Water Quality Parameters of Concern.....	4-60
4-23	Spokane River Water Quality Parameters	4-61
4-24	Farmland Conversion Impact Rating for Corridor Type Projects	4-85
4-25	Total Estimated Amount of Land Required	4-98
4-26	Ethnic Characteristics of the 3 CDNs within the Study Area	4-108
4-27	Publicly-Owned Recreation Properties.....	4-116
4-28	Spokane County Population Growth 1950 to 1993.....	4-117
4-29	Population Comparison of Impacted Census Tracts	4-119
4-30	Existing Bikeways — City and County	4-131
4-31	Proposed Bikeways on Shared City and County Roadways	4-132
4-32	Proposed Bikeways on Vacant or Abandoned Rights of Way	4-133
4-33	Ethnic Characteristics of Displaced Families Within the East Central Neighborhood.....	4-136
4-34	Number of Businesses and Employees Affected	4-155
4-35	Number of East Central Families to Relocate and Estimate of Future Replacement Housing Need.....	4-167
4-36	Mitigation for East Central Neighborhood Single Family Displacements	4-173
4-37	Summary of Known and Suspected Contaminated Sites.....	4-197
4-38	Investigative Cost Estimates	4-197
4-39	Investigative Cost Estimates for UST and AST Sites	4-198
4-40	Summary of Investigative Activity Costs on the North Spokane Freeway by Proposed Option.....	4-199
4-41	Summary Table of Hazardous Materials Site Estimated Cleanup Costs	4-201
4-42	Hazardous Site Remediation Estimate I-90 Collector/Distributor	4-201
4-43	Market/Greene (Preferred Alternative) [Site Remediation Estimate].	4-203
4-44	North Option (Preferred Alternative) [Site Remediation Estimate]	4-204
4-45	Summary Visual Quality Assessment Score	4-233
4-46	Distance Attenuation for Construction Noise in the Project Area	4-249
4-47	Estimated Energy Consumption during Construction NSF Project During the Construction Period 1997-2020.....	4-253
6-1	Summary of Your Place Park Design Reduction Avoidance Alternative	6-19
